SUBJECT: AMENDED DIVISION ORDERS

The purpose of this letter is to address the fact that I have never received the amended division orders sent multiple times by Mr. Delvin Thurman and his team. Orders were sent on or around June 6, 2024, and again on or around June 17th, and for some reason have not reached both myself and my Twin brother Dewey Beasley.

We believe that maybe the addresses are not clear enough on the affidavit, but addresses of all siblings, the descendent children of Linda C. Johnson and daughter of Ada M. Moore can be found below. In the meantime, our siblings did receive the amended division orders (the second time they were mailed out) and so we are utilizing the same package that was sent out to our brother, Cleo French. Please except our mail due to the fact we have yet to receive our own in the mail.

Barbara Saddler, PO Box 852041, Richardson, TX 75085 (has received her mail)

Cleo French, 2600 Tealwood Dr, Apt 926, OKC, OK 73120 (has received his mail)

Louie A. Beasley, 202 W. Chapel Ridge Rd, Apt 222, Pauls Valley, OK 73075 (has not received any amended division orders)

Dewey A. Beasley, 1001 SE Adams St, Idabel, OK 74745 (has not received any amended division orders)

SUBJECT: ROYALTIES AND POOLING

The purpose of this letter is to address the demand for royalties and pooling interest in production.

The law practice regarding division orders varies from state to state, I know that it is not required in the state of Oklahoma as I am sure you are aware of that also. Nevertheless, myself, nor my three (3) siblings have never received any compensation for royalties/pooling interest. In 1985, the Oklahoma Supreme Court put in place laws, rules, and regulations to help protect mineral owners from improper intentions and fraud from oil and gas companies. Perhaps your argument may be that the landman had no current information, but an affidavit of heirship has been in place for a few years now and updated as needed. I have checked many times with the Department of Treasury Office, mineral owners escrow account. Nothing has been distributed, yet you received approval from the Oklahoma Corporation Commission to drill a multi-unit horizontal well. Me and my siblings' names are registered, my question to you is how we determine the best way to allocate the percent and interest owed to me and my siblings. I have exuded patience during this process, as a result, nothing has been done in good faith or by law from your organization. I am requesting you, or someone from your organization, to establish and prepare the appropriate documents regarding production of royalties and pooling owed to me. I am the heir of Linda C. Johnson, who in turn was an heir of Ada M. Moore. There is money in suspense due to me, and I own interest in the new well that you are drilling in, currently. Information provided below.

APPLICATION

1. Parties: Applicant is Continental Resources, Inc., P.O. Box 269091, Oklahoma City, Oklahoma 73126. The attorney for Applicant is Karl F. Hirsch of the law firm Hirsch, Heath, & White, PLLC, 901 Cedar Lake Boulevard, Oklahoma City, Oklahoma 73114; (405) 235-1768. Applicant is the owner of the right to drill a well into and produce hydrocarbons from the hereinafter named common sources of supply. The name and address of each party being named as a respondent to this Application is shown on Exhibit "A" attached hereto and made a part hereof.

2. Allegation of Facts:

2.1.a By Order No. **714256**, the Corporation Commission established 640-acre horizontal well drilling and spacing units for production from the Caney, Sycamore and Woodford common sources of supply underlying of Section 20, Township 1 North, Range 3 West, Garvin County.

2.1.b By Order No. **714930**, the Corporation Commission established 640-acre horizontal well drilling and spacing units for production from the Caney and Sycamore common sources of supply underlying Section 29, Township 1 North, Range 3 West, Garvin County.

2.1.c By Order No. **592701**, the Corporation Commission established 640-acre horizontal well drilling and spacing units for production from the Woodford common source of supply underlying Section 29, Township 1 North, Range 3 West, Garvin County.

2.2 The Sycamore common source of supply in Section 20 and Section 29 may be developed under the Extended Horizontal Well Development Act. The Sycamore in these units hereby constitutes a Targeted Reservoir under 52 O.S. §87.6 and the Caney and Woodford constitute Adjacent common sources of supply. The top of the Caney is at a depth of approximately 8,080 feet in Section 20 and approximately 7,275 feet in Section 29. The top of the Sycamore is at a depth of approximately 8,440 feet in Section 20 and approximately 7,635 feet in Section 29. The top of the Woodford is at a depth of approximately 8,840 feet in Section 20 and approximately 8,035 feet in Section 29.

2.3 Applicant is proposing to drill a multiunit horizontal well (tentatively named the Billy the Kid 2-29-20X11M well) in Section 20 and Section 29, all in Township 1 North, Range 3 West, in the Targeted Reservoir, with a portion of the completion interval of such multiunit horizontal well to be located in the 640-acre horizontal well drilling and spacing units formed for the Caney, Sycamore and Woodford common sources of supply in Section 20 and Section 29, at the following location:

LOCATION	NORTH/SOUTH	EAST/WEST	UNIT
Commencement of Completion Interval	NCT 165' FSL	NCT 660' FEL	Section 29-1N-3W
End of Completion Interval	NCT 0' FNL	NCT 660' FEL	Section 29-1N-3W
Commencement of Completion Interval	NCT 0' FSL	NCT 660' FEL	Section 20-1N-3W
End of Completion Interval	NCT 660' FNL	NCT 660' FEL	Section 20-1N-3W

Applicant is proposing to drill the multiunit horizontal well to an estimated total measured depth of 16,609 feet with an estimated completion interval of 8,798 feet. Applicant intends to run casing in the horizontal portion or lateral of the wellbore and to cement the casing so as to cover and isolate the first and last perforations in the horizontal portion or lateral of the well to protect the correlative rights of offset owners. The granting of the Order requested will not obtain to Applicant any geological advantage adverse to the off-set operators.

2.4 The Commission should allocate to each of the affected units covered hereby the reasonable drilling, completion and production costs associated with the multiunit horizontal well and the commingled production and proceeds from the completion interval of such multiunit horizontal well. Based upon the information now available, Applicant is proposing that the allocation factor for each of the affected units should be determined by dividing the length of the completion interval of the multiunit horizontal well located in each unit by the entire length of the completion interval in the multiunit horizontal well. Applicant anticipates that approximately 40% of the completion interval of the multiunit horizontal well will be located in Section 20 and approximately 60% of the completion interval of the multiunit horizontal well will be located in Section 29 with the cost of and the production and proceeds from the multiunit horizontal well allocated between the affected units based on such percentages. The actual allocation of such costs, production and proceeds may vary depending upon the results of the drilling and completion of the multiunit horizontal well.

2.5 Attached hereto as Exhibit "B" and made a part hereof is a map showing the location of each currently existing well in each of the affected units covered hereby and the approximate anticipated location of the proposed multiunit horizontal well proposed herein. At this time and depending on the circumstances existing in the future, including the price of the hydrocarbons to be produced, Applicant may drill additional multiunit horizontal wells in the Targeted Reservoir covered hereby so as to promote the full and efficient development and operation of the Targeted Reservoir within the affected units.

2.6 In Cause CD No. 2023-001587, Applicant filed an Application requesting an exception to the permitted well locations in the 640-acre horizontal well drilling and spacing units formed for the Sycamore and Woodford common sources of supply in Section 20 and

Good morning Team Continental Resources,

It has been ten business days since Mr. Delvin has had our amended orders resent, and for some reason my Twin brother and I have not received ours. We are trying to close the loop on this process and can't figure out why our mail from your company is not arriving. Our older brother, Cleo French, has received his amended division orders package and has shared some of the contents with us but his packet has his name labeled and we need our own. Delvin,

The documentation has been filed on record at Garvin County along with the legal description for the mineral interest annotated on the form as well.

Thank you,
Louie

Louie,

The documentation will need to be filed of record in Garvin County, and it will be best to place the legal description for the mineral interest on the proof of death and heirship (question #2), so future title examiners can locate the document in the section 20-1N-3W and credit the interest accordingly.

Thank you,

Delvin Thurman

Good evening Mr. Delvin,

We spoke earlier and I've completed the affidavit in its entirety as required and got it notarized at the commissioners office here in Garvin County.

Very Respectfully,
Louie A. Beasley Sr.
